Subject: Senate Bill 1129

To whom it may concern,

I am in favor of Senate Bill 1129 which aims to reform the early release system of the CT prisons. Violent and persistently dangerous individuals should NEVER be allowed to earn risk reduction credits. We are becoming a state and nation of lawlessness that panders to and protects criminals that leave victims with the devastating consequences of criminal brutality and societal chaos. Anyone even considering early release should be considered an accessory to the crimes these criminals have committed in the past as well as the crimes they are likely to commit in an early release program.

Sincerely,

Richard Nordstrom
